To whom it may concern,

Our city has been using the BuildingReporter inspection tool since January 2011.

We have found that it has helped us lower our costs by eliminating the need for paper printing, micro fiche and storage.

Beyond the cost savings BuildingReporter has helped our city with our Go Green strategy and makes doing the inspection process quicker and more consistent.

I have found the Noratek team to be easy to work with and very responsive to our needs. I would recommend BuildingReporter to any city interested in improving their inspection process and lowering costs at the same time.

Sincerely,

Phil Markin
Director of Development Services
